HARD SKILLS

- Programming & Mobile Development (Android)
- UI Development with Jetpack Compose
- Database & Backend Integration
- Version Control & UI/UX Design
- Technical Practices & App Testing

SOFTWARE SKILLS

- Android Studio
- Kotlin & Java
- Jetpack Compose
- Flutter
- Figma
- Git & GitHub

CERTIFICATIONS

- **Best Project Award (PELOR)** – Infinite Learning (2025)
- **Magang Mandiri – Mobile Development** (2025)
- **TOEFL Prediction Test** – Score: **437**

PROFILE

Highly adaptable Informatics Engineering graduate (S.T.) with strong problem-solving and analytical thinking skills. Specializing in Android Mobile Development using Kotlin, Java, and Jetpack Compose. A responsible and continuous learner ready to deliver optimal contributions in a professional work environment.

EDUCATION & ACADEMIC HIGHLIGHTS

Universitas Islam Sumatera Utara (UISU) | Medan, North Sumatra, Indonesia
(2022 – 2026)

- **Degree:** Bachelor of Informatics Engineering (S.T.) | **GPA: 3.79 / 4.00**
- **TOEFL Prediction Score: 437**
- **Undergraduate Thesis:** *"Aplikasi Habit Tracker Berbasis Gamifikasi Menggunakan Algoritma Weighted Scoring untuk Meningkatkan Produktivitas Mahasiswa"* (Gamification-Based Habit Tracker App Using Weighted Scoring Algorithm).

EXPERIENCE

Mobile Developer — PT. Kinema Syntrans Multimedia
2025

- Utilized Android Studio, Kotlin, and Jetpack Compose to fix bugs and test new features.
- Improved application stability and runtime performance through manual testing and code refactoring.
- Collaborated with the engineering team to ensure smooth compatibility across diverse Android devices.

Mobile Development Intern — Infinite Learning (Kampus Merdeka Mandiri Batch 8)
March 2025 – July 2025

- Developed the **PELOR** cultural promotion mobile application using Android Studio, Kotlin, and Jetpack Compose.
- Collaborated closely with the AI Development team to integrate AI-based personalization and gamification features.
- Achieved the **Best Project Award** for successfully delivering the PELOR mobile application.

Information & Communication Technology Trainee — Infinite Learning
March 2025 – July 2025

- Participated in the Kampus Merdeka Mandiri (KMM) Batch 8 program focused on Information and Communication Technology (ICT).
- Practiced industry-standard mobile development workflows, Git version control, and UI/UX design with Figma.

Mobile Programming Workshop — Codecampus Community × UISU
June 2024 – July 2025

- Participated in the Mobile Programming Workshop organized by Codecampus Community in collaboration with the Informatics Engineering Study Program at Universitas Islam Sumatera Utara (UISU).
- Practiced Android mobile application programming fundamentals and responsive UI layout design.
